Noise from racetrack is very annoying

I'm glad to finally hear people complain about the noise at the Motorsports Park in Millville. Maybe something will be done about it.

I frequent Union Lake in the summer. In any given day, I (and others) hear the constant din of the cars from the racetrack. It certainly has altered the peace and quiet of the lake. Some days it is louder than others. It is like a pesky mosquito that's near your ear that just won't go away.

It won't kill me, but it's very annoying.
