

Practice what you preach, NJMP

Letters to the Editor/The News of Cumber...

To the Editor:

While conducting a bird survey as a volunteer for a conservation organization at the Maurice River Bluffs on Sunday, June 6, my peace and quiet was interrupted by the sound of un-muffled engines starting at 6:41 a.m. Yes, 6:41 a.m. This is not a typo.

Now I don't have any way of knowing if the noise being generated was from one car a dozen times or a dozen cars one at a time, but this continued almost constantly until after 8 a.m. when actual racing started.

In the facility rules of the New Jersey Motorsports Park there are two items dealing with noise. The first states "Un-muffled engines must not be run between 8 p.m. and 8 a.m." The second says, "Please, do not play loud music. Be considerate of those around you."

I would like to know why I and my neighbors can continue to be subjected to the annoying noise levels originating from the NJMP? Why do I have to listen to the loud speaker system at all times of the day asking drivers to line up in their group? Why do I have to hear constant engine noise and tire squealing?

"Be considerate of those around you." NJMP, practice what you preach.

Byron Robbins
