Racetrack has become a noisy neighbor at night

I live very close to the Millville Airport, which is right next to the New Jersey Motorsports Park.

I have read about and listened to all the complaints and reports regarding the excess noise. In general the noise does not bother me. It's in the background and I usually don't pay much attention to it. However, I must take offense at the recent decision to have racing until midnight on June 19.

Because of the late hour it was very quiet and the engine noise could be heard quite clearly and loudly. After all the uproar and adverse feelings about the noise, I consider racing until midnight a slap in the face to all the residents who live in the noise area. It's as if the racetrack has said we're going to race whenever we want and there is nothing you can do about it.

It appears that they are right. There should be no racing after 10 p.m.
